

Dear Applicant,

Thank you for considering Daughters of Sarah Nursing Center. Whether you are seeking placement now, or planning for the future, it is our pleasure to assist you with your health care needs.

Our website offers our Admissions Documents and helpful information. Please take a few moments to familiarize yourself with our many services as you prepare to complete the application forms.

All applicants desiring admission into our facility must be screened to assure that we can meet their health care needs. Therefore, to assure that a complete and appropriate assessment of your health care needs is done, the following items **MUST** be submitted before eligibility for admission is determined:

1. Patient Review Instrument (PRI) and Screen – To obtain these required documents, you may contact a visiting nurse, the County Department of Social Services, the County Department of Health, or a certified home care agency. If you are currently in a hospital, the Hospital Discharge Planner or Social Worker will provide us with the PRI, Screen, and pertinent medical information.
2. Physician's Report and Orders – This form is particularly important and must be submitted to your physician for completion and returned to our facility.
3. If you have an established Advance Directive (e.g.: Health Care Proxy, Living Will, Do Not Resuscitate, etc.), please be sure to submit a copy to us.

ALL of the above information is required one week prior to admission into our facility.

Daughters of Sarah accepts payment from individuals covered under the Medicaid program. For residents paying privately, our current rate is \$335.00 per day plus New York State Surcharge and charges for ancillary services. Ancillary services may include, but are not limited to restorative physical, occupational and speech therapies and prescription medications. **All of our residents' medications are ordered only through Royal Care Pharmacy.**

The Administration and staff of Daughters of Sarah Nursing Center are committed to providing the highest quality of care to those entrusted to us. We invite you to tour our Center. To set up an appointment or if you need further information, please contact me Monday - Friday, 9:00 AM to 5:00 PM at (518)724-3323 or daurioc@daughtersofsarah.org.

I look forward to meeting you and helping you make decisions regarding how best to meet your health care needs.

Sincerely,
Crystal Daurio, LPN
Admissions Coordinator
