

MEMORANDUM

TO: Daughters of Sarah Nursing & Rehabilitation Center Families and Residents
FROM: Mark L. Koblenz, CEO
Daughters of Sarah Senior Community
DATE: December 17, 2020

I trust that everyone has had success in digging out from the recent storm, and that you are all safe and secure. I want to publicly thank the many members of our staff, in all departments, who got up especially early today, as well as those who spent, and are spending, the night to ensure that staff are here to care for your loved ones.

I am writing to advise you that 1 new resident of the Nursing & Rehabilitation Center has tested positive for the virus. Additionally, 3 new staff members have also tested positive.

Regretfully, another resident who had tested positive for the virus has passed away. While many aspects of COVID are difficult for us to accept, I believe that losing a loved one we are trying so diligently to care for may be the hardest part. On behalf of the entire Daughters of Sarah campus, I express our deepest sympathy and extend our heartfelt condolences to the family.

At this juncture, there are 41 residents currently residing on the COVID unit.

If you have any further questions, please do not hesitate to contact us.

Thank you for your continued confidence in our staff.
