

**MEMORANDUM**

TO: Daughters of Sarah Nursing & Rehabilitation Center Families and Residents  
FROM: Mark L. Koblenz, CEO  
Daughters of Sarah Senior Community  
DATE: December 6, 2020

Please be aware that today we have learned of 11 additional residents on the Blue and Gold Units at the Nursing & Rehabilitation Center who have tested positive for the coronavirus. These individuals have been transferred to our COVID unit. There are currently 30 residents on that unit.

We have also received results from 4 staff members who have tested positive. As with other staff who receive positive test results, these staff members are now quarantining at their homes. Since the recent spike in infections, a total of 15 staff have so tested.

We continue to test residents to ensure that the virus does not expand its reach any further. As those results are received, we will share them with you.

At this juncture, we have decided to temporarily suspend new admissions to the facility.

We are tirelessly taking all the steps that we can to combat the spread of the virus. We will remain diligent in doing what we can to keep your loved ones safe.

We recognize that you may have questions. Please do not hesitate to contact your loved one's social worker for assistance.

Thank you for your compassion, trust, and understanding as we continue to confront the coronavirus.
