

MEMORANDUM

TO: Daughters of Sarah Nursing & Rehabilitation Center Families and Residents
FROM: Daughters of Sarah Community For Seniors
DATE: January 28, 2021
RE: COVID Update

This is just a brief notice to let you know that, earlier today, we learned that one of our residents has tested positive for COVID-19 in the hospital. This individual had tested negative in the facility a few days ago, but had been transferred to the hospital for other medical concerns.

Otherwise, we continue to test residents for the virus as part of our ongoing testing program to rapidly identify and isolate any possible coronavirus outbreak. We are pleased to note that all of our residents tested negative for the virus as a result of this week's testing.

Yesterday residents, who had gotten their first dose of the vaccine three weeks ago, received their second inoculation. In addition, our pharmacy provider was also able to give the first dose to certain eligible residents who, for whatever reason, did not receive a shot at our initial vaccine clinic.

As always, should you have any questions, or should you wish to schedule a video conference or window visit, please do not hesitate to contact you loved one's social worker.

Thank you for the ongoing trust and confidence you have displayed for Daughters of Sarah.
