

MEMORANDUM

TO: Daughters of Sarah Nursing & Rehabilitation Center Families and Residents
FROM: Daughters of Sarah Community For Seniors
DATE: January 6, 2021
RE: COVID-19 Update

I am writing to let you know that we have learned of one new resident at the Nursing & Rehabilitation Center who has tested positive for the COVID-19 virus, and who has been transitioned to our COVID Unit. At present, there are only 6 residents in the facility who remain positive for the virus.

We are also very pleased to share that today marked the initial day of vaccine inoculation program at the facility. In cooperation with our pharmacy partner, CVS, all residents and staff who had elected to do so, did receive their first dose of the Pfizer vaccine. The current plan with CVS is to have the second dose administered to these individuals on January 27, 2021.

Should you have any questions, please feel free to contact your loved one's social worker.

We appreciate your continuing support of, and understanding for, Daughters of Sarah Community For Seniors.
