

MEMORANDUM

TO: Daughters of Sarah Nursing & Rehabilitation Center Families and Residents
FROM: Mark L. Koblenz, CEO
Daughters of Sarah Senior Community
DATE: December 20, 2020
RE: COVID Update

This Memorandum is being sent to inform you that, over the weekend, we have recorded one additional staff member who has tested positive for the Coronavirus.

Unfortunately, we have also had one resident pass away, having previously tested positive for the virus. All of us here at Daughters of Sarah express our heartfelt condolences to the family. May their loved one's memory be forever a blessing...

I do want to thank all of you who have sent back a signed consent form authorizing your loved one to receive the COVID-19 vaccine. Given that there is a fair amount of preparatory work that we have to do before the vaccine arrives on site, we are encouraging everyone to return a signed consent form no later than Thursday, December 24th. The sooner that we can assess the numbers of residents to be vaccinated, the smoother the vaccination process will flow.

To facilitate your ability to return a signed form, I attach an additional copy to this memo. If you would like your loved one to receive the vaccine, and have not yet sent in a consent form, please write in your loved one's name, sign the form as the Responsible Party, and return a scanned copy to info@dosscc.org.

Again, if you are seeking further information about the efficacy of the vaccine, or information on the vaccination process itself, a substantial amount of regularly updated resource material is available on the CVS website at <https://www.omnicare.com/covid-19-vaccine-resource/> . You can also refer to the FAQ sheet that we sent out this past Friday.

Vaccinating our residents and staff is going to be a large task. Accordingly, I thank you in advance for your thoughtfulness and patience as we work through the particulars of the vaccine rollout.
