RE: COVID-19 Update

We are writing to advise you that we have received COVID-19 test results indicating that 3 new residents have unfortunately contracted the virus. Accordingly, all residents are remaining exclusively in their apartments.

We continue to monitor all residents regularly for symptoms of the virus.

Additionally, we were informed that one of our vendors, who periodically visits the building, has also tested positive for coronavirus. This individual is now quarantining at home.

As we begin a new year, no one at our campus ever envisioned facing the challenges we have confronted for the past 10 months. However, with your support, we have persisted through all of the up and downs; and are prepared to continue to provide for the safety and care of your loved ones with acts of loving kindness.

We remain committed to keeping you apprised of these circumstances as they might develop. Please let us know if you have any questions.
