

Fact Sheet for Out of House Social Visits/Appointments

For the continued health and well-being of everyone, we ask that you follow these guidelines when leaving the Massry Residence:

- When leaving, make certain to practice social distancing, frequent handwashing, and the proper wearing of appropriate face coverings for the duration of your transportation and visit. Please see the attached instructions for hand washing and how to wear a face mask.
- If taking a social outing outside of the facility, please be aware of potential risks of public settings, particularly if you have not been vaccinated, and avoid crowds and poorly ventilated spaces. If you are visiting with friends or family in their homes, follow appropriate face covering and physical distancing recommendations for visiting others in private settings.
- Please sign out at the front desk using the Accushield Kiosk.
- If a resident is leaving on their own, they must sign out, indicating that they have received this *Fact Sheet for Out of House Social Visits/Appointments*.
- If a family member or friend is picking up a resident, please ask that individual to come into the front entrance to acknowledge receipt of this Fact Sheet, as well.
- **For all residents (fully vaccinated and not yet fully vaccinated residents):**
 - Anyone leaving for a Social Gathering or an Appointment of less than 24-hours (i.e., not overnight) will, upon return, be monitored daily for 14 days for signs and symptoms of COVID-19.
 - Anyone leaving for a Social Gathering or an Appointment for over 24 hours (i.e., overnight) will, upon return, be monitored daily for 14 days for signs and symptoms of COVID-19, and will be tested for COVID-19 between day 3 and day 7 after their return.

Please see reverse side for handwashing and face covering education.
