

MEMORANDUM

To: Daughters of Sarah Nursing & Rehabilitation Center Residents & Families
From: Lisa Marrello, Administrator
Date: December 29, 2021

In keeping with our practice of informing residents, families, and friends as to the status of COVID related matters at the Daughters of Sarah Nursing & Rehabilitation Center, I am writing to let you know that, yesterday, one of our residents on the Blue Unit and three employees tested positive for the virus.

All residents on the Blue Unit have been tested. Test results were negative for the virus.

While the CDC and NY DOH have indicated that it is safer for visitors not to enter the Center during an outbreak investigation, visitation remains open. However, during an outbreak investigation, CDC rules require that all parties should wear face coverings or masks at all times during a visit, whether an individual is vaccinated or not.

Moreover, to minimize the risk of exposure to others, visits should occur solely in resident rooms.

If you have any questions feel free to contact your loved one's social worker.

We will continue to post updates of information regarding COVID on our Coronavirus Hotline at 518-724-3203 and on our Website (www.daughtersofsarah.org). Please avail yourself of these options.

Thank you for your continued understanding, compassion, and support.
