

Shalom. This message from Daughters of Sarah Community for Seniors provides a COVID update for both the Nursing & Rehabilitation Center and the Massry Residence.

As of Wednesday, January 5, 2022:

The **Nursing & Rehabilitation Center** has 1 new resident and 5 new staff members who have tested positive for the COVID virus. Our two positive residents continue to be asymptomatic. We will continue to conduct outbreak testing. If your loved one tests positive, we will contact you directly.

The **Massry Residence** has no residents and 1 new staff member who has tested positive for the COVID virus.

We continue to screen all staff before their shifts and are testing all staff who have been exposed to the virus wherever that exposure occurred. This is all in accordance with and following the recommendations of the Albany County Department of Health, the CDC, CMS, and NYSDOH.

As we continue to be in an outbreak status, while we remain open to visitors we ask that you wear your mask at all times and do not visit if you are exhibiting any signs and symptoms of COVID and/or if you have been exposed.

If you have any questions or concerns please feel free to reach out to your loved ones' social worker.

Thank you for your continued support, patience and understanding.
